 "5 Maj" Street, Tirana,1012

Merging my IT background and intuitively creative mind I found myself freelancing as an User Experience and Interface designer. It's been a year since my graduation and I am proud of my professional growth. Not only did I expand my skill set on the field of UX, but I also manage to contribute in multiple projects, where my role was project manager, Ux/UI Designer, Web development (Wordpress & Wix) . On my spare time I enjoy editing videos for small film making projects. Check my website for better visibility of my work: <https://amadeogjurma.wixsite.com/portofolio>
